CAREER OBJECTIVE

Full Stack Developer skilled in React.js, JavaScript, HTML, CSS, Tailwind CSS, and Bootstrap. Experienced in building responsive UIs, developing and integrating RESTful APIs, and working with Node.js, Express.js, and MongoDB. Seeking an entry-level role in end-to-end web development.

WORK EXPERIENCE

Web Developer Intern • Internship

Apr 2025 - Jul 2025

GeeksforGeeks, Noida

- Successfully completed a 3-month internship focused on building dynamic, responsive web applications using the MERN stack.
- Created interactive UIs with React.js, implementing hooks, routing, and client-side state management for real-time data updates.
- Collaborated on backend development using Node.js, Express.js, and MongoDB, contributing to authentication, CRUD operations, and API integration.
- Designed and styled reusable components using Tailwind CSS, Bootstrap, and vanilla CSS to ensure cross-browser compatibility and responsive design.

EDUCATION

Master of Computer Applications (MCA),

2025 - 2027

Dr. A.P.J. Abdul Kalam Technical University, Lucknow, Uttar Pradesh

O Level Course,

2024 - 2025

National Institute Of Electronics & Information Technology

Bachelor of Computer Applications (BCA),

2017 - 2022

Chaudhary Charan Singh University

TRAININGS / CERTIFICATIONS

MERN Full Stack Web Development

Apr 2025 - Jul 2025

GeeksforGeeks, Noida

PROJECTS

ECommerce Platform

May 2025 - Jul 2025

Built a full-featured e-commerce web application using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB, focusing on a responsive UI and dynamic user experience. Implemented user authentication, protected routes, and profile photo uploads with Multer. Designed key frontend components like cart, wishlist, search, filters, and checkout, and integrated EmailJS for sending confirmation emails. Ensured smooth performance across all devices.

Quiz App

Jul 2025

Built a fully functional quiz web app using React, Tailwind CSS, and the Open Trivia API, featuring real-time answer tracking, scoring logic, and a result summary with percentage calculation. Utilized the he package to decode HTML entities and optimized performance with useMemo and React.memo for a smooth user experience.

Movie Search App

Apr 2025 - May 2025

Developed a responsive movie browsing app using React, Tailwind CSS, and the TMDB API, featuring real-time search, dynamic routing, pagination, and detailed movie views, with a focus on intuitive user experience and consistent styling across devices.

SKILLS

- HTML
- React
- MongoDB
- Bootstrap
- REST API
- CSS
- Node.js
- Redux
- Git
- Postman
- JavaScript
- Express.js
- Tailwind CSS
- GitHub
- VS Code
